

Program: Eco 360

Grade 7 – British Columbia Science Curriculum Connections

Activity Name	Organizing Idea	Learning Outcome
Activity: All About Plastics	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Circular Economy and the UN's Sustainable Development Goals	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: How Plastic Waste Harms the Environment	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Imagine a Waste-Free Economy	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Our Plastic Consumption Footprint	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Plastic Remake	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Plastic in Our Oceans	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Sorting Your Waste	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Taking Inspiration from Nature	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
Activity: Types of Plastics	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.

Activity: Why Do We Have Plastic Waste in the Environment?	Impacts of Humans, First Peoples Knowledge of Climate Change, Elements and Compounds	Evolution by natural selection provides an explanation for the diversity and survival of living things.
		Earth and its climate have changed over geological time.
